- (1) **Electrical:** No code violations noted.
- (2) **Signage:** No code violations noted
- (3) **Emergency:** Although an emergency evacuation plan is present within the facility, the Child Care Licensing Program have yet to receive the center's comprehensive Emergency Preparedness, Response, and Recovery Plan. As a result, it is of the utmost urgency that such plan be turned into the licensing office for review and approval. In addition to that, according to Ms. Cha Hee, she conducts monthly fire drills and then turns in the log to Mr. Jin Koo Cho. Absent the drill log, the Safety Inspectors have no way of validating whether or not the drill was conducted. Therefore, a copy of the drill log must be kept at the center for inspections purposes.
- (4) **Sanitary:** Upon inspection, I found a bar soap in the rest room. The bar soap was being used by the children during hand washing. However, the practice of using bar soap is discouraged. Therefore, I highly urge the center to use liquid soap placed in a pump dispenser for handwashing purposes.
- (5) **Outdoor:** No code violations noted.
- (6) **Capacity:** No code violations noted.
- (7) **Health:** No code violations noted.
- (8) **Documents:** All the required documents are posted. As to the children's records, they are placed in a binder that is easily accessible to the licensing inspectors.
- (9) **Other:** The most updated children's roster on file was submitted as of June 7, 2019 which indicated a total enrollment of eight children. However, during my inspection, Ms. Cha Hee provided the most up-to-date roster which indicated a total enrollment of six children. In light of that, it is important that updated roster be submitted to the licensing office via email to Ms. Gregoria O. Somol at cclp.gregoria.somol@gmail.com or Mrs. Rita N. Olopai at ccdf.ritnolopai@gmail.com.

NOTE: Provider Assessment Monitoring checklist is available upon request.
