Areas for Recommendations (10.03.24 and 10.22.24)

#	Area(s) to Address: (e.g. health and safety topic; QRIS star level indicator)	Observation	Recommendation	Action taken
1	(3-E) Results of the child's ASQ must be discussed with parents/guardians and get consent to refer if needed	Based on the center's calendar, the parent-teacher conference (PTC) is scheduled on October 18, 2024. Agenda includes discussion of ASQ to parents and guardians.	Maintain records of the scheduled event which will be checked on site for the follow-up visit.	Evidence showing ASQs were discussed with parents/guardians during the Oct. 18 PTC were presented during the follow-up visit.
2	(6-A) Daily health checks are conducted for all children upon arrival.	No daily health checks were completed for two children in the observed rooms – evidenced by a lack of information entered for the two children on the day of the visit.	Daily health checks must be done for all children upon arrival and records must be kept up to date.	All children present during the follow-up visit were checked and records are up to date.
3	Prevention and control of infectious diseases.	Reusable/ washable hand towels were hanging by the children and adult handwashing area; it was used to dry hands after washing. Moisture breeds germs and bacteria. Use of reusable hand towels increases the potential for spreading germs and bacteria.	Avoid the use of reusable hand towels for drying wet hands. Instead, use disposable paper towels. For quality practices, the use of disposable paper towels is highly encouraged to prevent the spread of germs.	Reusable hand towels were no longer seen hanging in the wash area during the follow-up visit. Clean folded washcloths for one-time use were observed in an accessible basket
